

EXPLORE SWEDEN 2008 PRESSRELEASE

2008-04-09

Explore Sweden has opened the 2008 site!

In a beautiful time of the year the unsupported Adventure Racing World Series event *Explore Sweden* is taking place in the High Coast region.

Late summer and early autumn will give the racers a mild climate on a challenging course along the spectacular coastline and archipelago.

The course design will showcase the best part of the area and on the same time put the teams to the test in tactics, navigation, physical and mental strength.

The race includes island traverses, mountainbiking, coasteering, running, ropeworks, inlines, kickbikes, kayaking and much more...

The 2008 edition is taking Scandinavian Adventure Racing to a new level regarding organisation, course design and spectacular ropeworks.

Please visit our Explore Sweden 2008 website at: www.exploresweden.se

Do not hesitate to ask questions and you are very welcome to Sweden in September!

Kind Regards
Helena och Mikael Lindnord
